

Patricia Krohn Memorial Award

Nomination Application

Jonesville Community Educational Foundation presents this award annually to a member of the Jonesville Community who exemplifies those characteristics deemed in the spirit of who Patricia Krohn was.

What is the Patricia Krohn Award?

On May 16, 2002 the Jonesville Community lost a valued and vital member from injuries sustained in an automobile accident. Pat was very active in the community. She was born here and lived her life here. She was the Guidance Counselor at Williams Elementary School, active in the PTA, both as a parent and teacher. She was a founding member of the Jonesville Community Educational Foundation, whose primary purpose was furthering the educational opportunities and the quality of education for children in the Jonesville Area.

This award is a way to remember what it was about Pat that made her special and how those of us in the community can follow the example she set to keep our community thriving and growing in a positive way. This is not a monetary award. This award is an acknowledgement for someone that demonstrates those same qualities, and hopefully encourages more people to follow the example Pat set.

Anyone may be nominated for this award, including students, teachers, business owners or just a resident of the community. Please be specific as to characteristics and actions demonstrated by the nominee which are in the same spirit as who Pat was.
